Support free access to the internet, e.g. create a hotspot map that indicates public spaces with free Wi-Fi.

Keep yourself up to date with the latest technologies and innovation. Share the latest information with your friends on social media.

Bring changes to the world. Join incubation workshops with your peer to brainstorm innovative ideas for a better world.

Raise awareness of the importance of infrastructure for communication services by organizing activities, e.g. mobilize people to donate their used electronic devices for people in need.
